Shane Kelly took senior pictures of our daughter. I cannot even put into words how pleased we were with the photos! Shane went out of his way to catch the best light and the best background for each portrait! He did multiple sittings and poses to ensure that he captured our daughter's personality and grace. In the end, Shane created a slideshow of our favorite pictures that our daughter was able to post on her Facebook page for all to see! Shane was professional, conscientious, and understanding with a seventeen-year-old girl's changing wants and needs. We are truly grateful for his time and attention to her portraits! Thanks Shane!

Thanks again for the family portrait you did for us this year. You chose the perfect location, background and time of day. All the pictures, from the family to the individual children photos, turned out great. It made it hard to pick which one's we wanted. We're extremely happy we took your advice in choosing the canvas for our family portrait. It's amazing what it does for the photo. We look forward to you taking our family pictures in the future! Thanks again.

Working with Shane was by far the best experience in photo shooting we have ever been a part of. In the past, our family photos have turned, not only awkward in final product, but unbelievable as well. You smile during the photo, with hope that your family will look just as happy as the family in every other family photo you have seen in various advertisements... and they never do. But **these** did. Shane demonstrated wonderful light and composition techniques which captured the essence of our family's joy within a few shutter clicks. We will not be using any other photographer but him from now on!

Shane was very professional and helpful in all aspects of capturing our wedding day. He took the time to communicate with us to find out what pictures we wanted, and how we wanted them done. During the wedding it was as if he was not even there, yet he was able to capture all of the special moments of our day. Shane went well and beyond our expectations, and the photos he created were one of a kind. We appreciated all of Shane's hard work and would recommend him to anyone wishing to capture memories that will last a lifetime.

My best friend was married in July of this past summer. While searching for a high quality, reasonably priced photographer, I stumbled upon Shane Kelly Photography. From the very first meeting through the final creation of the wedding album, Shane exemplified excellence in quality and customer service. He organized the group and was able to capture some incredible pictures. His ability to snap a photo that captures all of the expression and emotion of a person's character is astonishing! We ended up with over 200 photos that were absolutely breathtaking. Shane also created special effect photographs of the bride that I would consider to be works of art. I was very pleased with our overall experience and would strongly recommend him to everyone I know!

Your work is amazing! The photo's you took of the children for Father's Day are phenomenal. I was really impressed on how well you worked with our two and three year old. The natural setting you chose was perfect. I am very much looking forward to having you do our family portrait. Thank you again!

Shane Kelly has taken photos for my family for years. When I graduated from High School I asked him if he would do my senior portraits. Today I am ever so glad I did, because he did an excellent job! Everything from the lighting to the location to the poses, pleased me very much. All of my friends, family and myself were delighted with the superb quality of the photos and his ability to capture such a wonderful representation of the true me. Also Shane himself was very patient and kind. What could have otherwise been a treacherous, uncomfortable and boring afternoon under the eye of the camera was painless and pleasant. I highly recommend Shane Kelly Photography for any and all of your photography needs.
